

Subclasses

- Launch Vehicle Flight Only (LVFO)
- Launch + 1
- In-Orbit
- Assembly, Integration and Testing (AIT)

Appetite

LVFO

- GEO and LEO satellites
- Predominantly Ariane and Falcon launches – others will be considered selectively
- Tried and tested products – caution regarding next gen technology

Launch + 1

- GEO satellites
- Preference for Ariane and Falcon launch vehicles but not limited to– others will be considered selectively
- Preference for established manufacturers but not limited to these – others will be considered selectively
- Tried and tested products – caution regarding next gen technology

In Orbit

- Healthy and young satellites in Year 2 onwards of orbit
- Preference for established manufacturers but not limited to these – others will be considered selectively
- Caution regarding prototypical satellites/features
- GEO only

AIT

- Top Quality manufacturers
- Healthy deductibles and preference for excess attachment points
- Off Risk at Intentional Ignition
- Can offer War & Terrorism cover stand-alone or as part of the package

Underwriting maintained in-house – no appetite for binders/lineslips

Cover

- LVFO – Reimburse Insured in the event of a total loss, constructive total loss and/or partial loss as a result of loss/damage/failure of satellite from Launch (intentional ignition) to Separation of the Satellite from the launch vehicle
- Launch + 1 – Launch Risk as above but including 12 months of in-orbit coverage
- In-Orbit – Reimburse Insured in event of a total loss, constructive total loss caused by loss of, damage to or failure of the Payload (eg satellite) taking place between attachment of risk and termination of risk whilst in orbit
- AIT – Reimburse the Insured in the event of Physical Loss or Damage from manufacturer's warehouse to launch site.

On an Insurance and Facultative Reinsurance basis

Target Clients

- Satellite Owners, Manufacturers and other Insurance Companies on a Facultative basis

Capabilities

- Normal Max Line Size – USD 50m Ariane launches and USD 30m Falcon
- Normal Max Tenor - 3 years maximum for LVFO and L + 1 but 12 month annually renewing policies for Orbit
